90%(current %)

---

### SSC

Holy Cross High School, Kurla

06/2018 - 06/2019,

10th pass out with 84%

## Skills:

- Good knowledge with Mobile Application Development with Java.
- Intermediate knowledge in Python, C, C++, html and CSS.
- Basic knowledge in Data Structures and algorithms, app development with Flutter, django and Javascript.

## About

Currently, I am about to finish my final semester/year at college, and in these few years I have been taught many programming languages, software development and testing, worked on various projects, built applications etc. But the practical application knowledge will help me to get to know how much I have learnt and where I stand in today's competitive world. I see this as an excellent opportunity to show my skills, talent and whatever I have learnt which inturn will help me gain more knowledge about how this industry functions, as well as for pursuing my further studies. Hence, this is why you may hire me for this internship.

## Personal Projects:
